

Amendment to the Specification

The specification has been amended to include material from U.S.S.N. 09/141,220 that had previously been incorporated by reference. Please replace the original specification with the amended specification, clean and marked-up copies of which can be found in the Appendix.

Please note that Figures 1-5 and Examples 1-5 of U.S.S.N. 09/141,220 were renumbered as Figures 5-9 and Examples 5-9 upon incorporation into the present specification in order to maintain continuity of numbering of the Figures and Examples. Thus, Figures 5-9 and Examples 5-9 of the presently amended specification correspond to Figures 1-5 and Examples 1-5, respectively, of U.S.S.N. 09/141,220.

Beginning on a new page, immediately before the claims, please insert the attached Sequence Listing into the above-referenced case; please renumber subsequent pages accordingly. This Sequence Listing includes the Sequence Listing from U.S.S.N. 09/141,020 that was incorporated by reference. Please note that SEQ ID NOS: 1-3 as originally presented in the present case have been renumbered as SEQ ID NOS: 81-83 in order to maintain continuity of numbering of SEQ ID NOS. Thus, SEQ ID NOS: 81-83 of the presently amended specification correspond to SEQ ID NOS: 1-3, respectively, of the present application as originally filed.

The Appendix also includes a Statement under 37 C.F.R. § 1.57(f) stating that the material being inserted is the material previously incorporated by reference and that the Amendment contains no new matter.
